

U.S. Says No Other Data Sustain Eaton War Fears

WASHINGTON, May 25 (AP)

—A spokesman said today the State Department had no information from other sources along the lines of a prediction by Cyrus S. Eaton, the financier and industrialist, that the United States was threatened by nuclear war with Communist China and the Soviet Union in a week to four weeks unless it stopped bombing North Vietnam.

Mr. Eaton, just back from Prague, Budapest and Moscow, made his forecast yesterday in a speech to the Economic Club of Detroit.

He based it on remarks that he said Premier Aleksei N. Kosygin made to him last Thursday to the effect that the United States had declared war on the Soviet Union, that the Soviet Union was committed to the defense of North Vietnam and had "no alternative but to fight."
